**Description**

This 1966 home went from dark and dated to open, bright and revived. Natural light spills in through large windows and reflects off gorgeous new surfaces. Top-of-the-line stainless steel appliances, new custom cabinetry and a large kitchen island make this an ideal home for entertaining. The new open floor plan was configured around the home's expansive Puget Sound view, making it the perfect place to start and end each day. This home is 49 years "new."
