Description

This 1908 home had a dated 1980s bathroom that was no longer holding up to cleaning. The room was gutted and redone adding modern conveniences including heated floors and a steam shower. The goal was a fresh, clean, modern look that still fit with the era of the home. It is the only bathroom on the second floor and shared by the entire family so a private toilet room was created and the single vanity was replaced by a double vanity.
